

AGENDA
Aurora City Council Meeting
Wednesday, November 12, 2014, at 7:00 P.M.
City Council Chambers, Aurora City Hall
21420 Main St. NE, Aurora, OR 97002

1. Call to Order of the City Council Meeting

2. City Recorder Calls Roll

Mayor Graupp
Councilor Sallee
Councilor Brotherton
Councilor Sahlin
Councilor Vlcek

3. Consent Agenda

- I. City Council Meeting Minutes – October 14, 2014
- II. Planning Commission Meeting Minutes –October 2014
- III. Historic Review Board Minutes –September 2014

Correspondence

I.

4. Visitors

Anyone wishing to address the City Council concerning items not already on the meeting agenda may do so in this section. No decision or action will be made, but the City Council could look into the matter and provide some response in the future.

5. Mayor's Report

- Various Discussion Points/Topics

6. Discussion with Parks Committee

7. Discussion with Traffic Safety Commission

8. Reports

A. Marion County Deputy Report – (included in your packet)

B. Finance Officer's Report – Financials (included in your packets)

1. Revenue & Expense Report

C. Public Works Department's Report – (not included in your packet)

1. Monthly Status Report (Storm Water)
2. Monthly Status Report (Water)
3. Parks Report, OSU Tree Report
4. Sewer Dept Report

D. City Recorder's Report (included in your packet)

E. City Attorney's Report – (not Included in your packet)

- Updates on outstanding projects

9. Ordinances and Resolutions & Proclamations

- A. Discussion and or Action on Second Reading of Ordinance Number 477 An Ordinance Providing for a Cross Connection Program and repealing Ordinance Number 387.

10. New Business

- A. Discussion and or Action on Ordinance Number 477 An Ordinance to Change the Current Cross Connection Program.

11. Old Business

- A.

12. Adjourn

Minutes
Aurora City Council Meeting
Tuesday, October 14, 2014, at 7:00 P.M.
City Council Chambers, Aurora City Hall
21420 Main St. NE, Aurora, OR 97002

STAFF PRESENT: Mary Lambert, Finance
Darrel Lockard, Public Works Superintendent
Kelly Richardson, City Recorder

STAFF ABSENT: Dennis Koho, City Attorney
Pete Marcellais, Marion County Deputy

VISITORS PRESENT:

1. Call to Order of the City Council Meeting

The meeting was called to order by Mayor Bill Graupp at 7:00 p.m.

2. City Recorder does roll call

Mayor Graupp – present
Councilor Sallee- present
Councilor Brotherton -present
Councilor Sahlin – present
Councilor Vlcek – present arrived late at 7:05 after roll call

3. Consent Agenda

- I. City Council Meeting Minutes – September 09, 2014
- II. Planning Commission Meeting Minutes –September 2014
- III. Historic Review Board Minutes –August 2014

Correspondence

I.

Motion to approve the consent agenda as presented was made by Councilor Sallee and is seconded by Councilor Brotherton. Motion Approved by all.

4. Visitors

Anyone wishing to address the City Council concerning items not already on the meeting agenda may do so in this section. No decision or action will be made, but the City Council could look into the matter and provide some response in the future.

Byron Schriever, 14980 Seal Rock, presents his water filter of 4 months it is in fairly good condition. I would give it a C+.

Mayor Graupp thanks him for the update and informs him that the copper and led test came back good.

5. Mayor's Report, Mayor Graupp

- Various Discussion Points/Topics
- Kris and I attended the Main Street Conference it was very beneficial for me and I saw that two members from the Historic Review Board Karen Townsend and Gayle Abernathy attended as well. The displays were well done.
- Kris the presenters were phenomenal on marketing and display aspects that help individual businesses and keeping people shopping in your town.
- Graupp, one thing I notice coming back from the conference the downtown area has the thing first Friday and I saw that everything was dark the streets and the stores were dark it was hard to tell they were even open.
- Kris marketing the businesses so that everyone knows there open in the evenings is key. The outside display is delicate although window display can be a good tool too much can hinder people from seeing what is happening inside. The same is true of outside display too much is a bad thing because it then looks like junk and people don't want to walk through it to the store front.
- The conference was well done and I think we took away many things that could be helpful in our community.

I stopped by Wilsonville; I noticed they were handing out these scrapers and lids to make people more aware of their grease disposal. To help remind people to not put grease down their drains. I think we should think about whether or not to hand out items such as these.

I will be gone until November 3rd for business and family funeral.

Councilor Sahlin, as Council President will be signing checks. Please have a list of regular checks so I know which ones are normal.

Councilor Sahlin informs the group that ODOT will be doing some paving in the near future on 99E from the light to Barlow.

- ## **6. Discussion with Parks Committee,**
- Last month there was discussion regarding the trees in the park that were discussed so far we have no report. Roof life did provide an estimate for the restrooms and will begin clean up soon. Councilor Vlcek asks about the estimate for the tree trimming he feels as though some of the work can be done in house to save some money. Councilor Sahlin I am all for saving money however we need to make sure this gets done. Councilor Sahlin requests that where the park is concerned when people

are discussing it especially by email that he be cc'd on all correspondence so he is up to speed as well.

Mayor Graupp asks if we are going to consider striping out a soccer field. Councilor Vlcek will head up the project since he has a contact that is willing to make the soccer goals. Once we receive a quote we can decide from there.

7. Discussion with Traffic Safety Commission, No one is present.

8. Reports

A. Marion County Deputy Report – (not included in your packet)

- Councilor Vlcek asks if the Mayor was aware that there is a new deputy coming to Aurora soon taking deputy Marcellais position since his contract is up. It is my understanding that Deputy Marcellais has picked his replacement and feels as though he is the right person for Aurora he begins in January at which time Council can speak with him.

B. Finance Officer's Report – Financials (included in your packets)

1. Revenue & Expense Report

- I have included a new report I believe it gives a truer picture of percentages spent. They all agree that they like this report and would like to see it each month.
- The Auditors were here for 2 days rather than 3 days so far so good.
- Mayor Graupp informs the group that regarding the change in audit firms that would not be necessary however it is recommended to change staff within the firm.

No more questions from Council.

C. Public Works Department's Report – (included in your packet)

1. Monthly Status Report (Storm Water)

2. Monthly Status Report (Water)

3. Parks Report, OSU Tree Report

4. Sewer Dept Report

- The routine water meter installation is going well. Councilor Sallee how many is budgeted for replacement this year? 50
- Mayor Graupp had received an email from the residents on Albers Way regarding the light pole that has not been taken care of.
- Councilor Sallee asks Public Works Superintendent again about a punch list of the top 5 items that need done and where we're at on these. Honestly I do not see a lot of progress happening from previous discussions. Superintendent Lockard informs Sallee that we have a lot of comp time on the books right now so it may have to wait. Sallee you need to prioritize and get this list done.

- Councilor Sallee also asks for a master list of mandatory tests and reports along with their due dates. Just to make sure that we are in compliance at all times.
- Darrel also informs Council that he has someone coming in to possibly clear more land for additional irrigation. I suspect it to run around 9 to 10 thousand dollars.

D. City Recorder's Report (included in your packet)

- Finished LEADS training
- Working still with HD supply regarding software integration.

E. City Attorney's Report – (not Included in your packet) Mayor Graupp updates the council as Attorney Koho is out sick.

- Apparently all of the paperwork was successfully filed and a judge reviewed it and rather than ruling 365 days it was shortened to 180 days. So by early spring we could have this finished potentially either cleaned up or foreclosed.
- Councilor Vlcek asks if were to foreclose would it be possible to place a trailer on it for temporary offices for city hall. Mayor no it is zoned Historic District and they are not allowed in the district. Between Councilors they discuss the possibility of this site as a future city hall site and Councilor Sahlin states let's wait to see what happens first.

no more discussion.

9. Ordinances and Resolutions & Proclamations

A. Discussion and or Action on First Reading of Ordinance Number 477 An Ordinance Providing for a Cross Connection Program and repealing Ordinance Number 387.

Councilor Salle, ask for clarification regarding number 7 if everyone uses chemicals then wouldn't they be required to have a backflow device, Mayor Graupp no because its not on the end of the hose it can't back up and if they do then we cannot police everyone so we will do the best we can. She also asks if it is required for everyone with sprinkler system if they are required and yes Is the answer. Also who is the specialist? And why is it not identified. It would be the person performing the tests.

Councilor Sahlin asks who is going to police this situation?

Councilor Vlcek, are we going to send letters?

It is briefly discussed how all of this will work and is decided that staff can put together a process of implementation and bring it back to council to review.

Motion to approve the first reading of Ordinance Number 477 is made by Councilor Vlcek and seconded by Councilor Sallee. Passed by all.

10. New Business

- A. Discussion and or Action on Ordinance Number 477 An Ordinance to Change the Current Cross Connection Program.

11. Old Business

A. Discussion and or Action on Proposal from Verizon Wireless

- Councilor Sallee asks if the current amount proposed seems appropriate, Finance Officer Lambert states yes it does.
- Councilor Vlcek' concern is about safety and health risks involved, Mayor Graupp states this is an ongoing issue which there is no resolve. Councilor Sahlin I think the jury is still out on that one.
- It is the consensus of the Council to have Mayor Graupp sign the lease with Verizon and move forward.

Councilor Brotherton brings up a point regarding the city hall building fund and if it would be a good idea to look into putting up a temporary trailer across the street and demo this building. Mayor Graupp states if the council feels it's time to start the analysis process to see what our needs are for a new city hall he thinks that would run around 10,000 to begin that phase of the process.

I think the better place to start would be to find new ways to generate new funds for the city hall building fund. No consensus is arrived at.

12. Adjourn

Mayor Graupp adjourns the October 14, 2014 Council meeting at 8:35 pm.

Bill Graupp, Mayor

5. New Business

A. Discussion on Information Regarding Land Use Planning Program

I would like to take this training program in pieces and go over each section for our group, What I want to get out of this program is to get everyone to understand exactly what we do here each month and why.

Chapter 1: Overview of the Oregon Land Use Planning Program

The purpose of land use planning is to manage land uses and activities efficiently to meet our needs today while conserving resources for future generations. Planning protects water, soil, fish and wildlife, vegetation, riparian, forest, agriculture, estuarine, and other natural systems from adverse effects of unregulated development.

Planning promotes development that enhances livability through man-made systems such as industrial and commercial development, streets, and other needed public facilities and services. Effective land use planning carefully balances conservation and development to meet state, regional and community objectives. Well-planned areas are more cost-efficient to serve with water, sewer and roads. In Oregon, this is accomplished by coordinated local government comprehensive plans and implementing measures that reflect state policies while meeting local needs and conditions.

History

Oregon's planning system dates back to the legislature's adoption of Senate Bill 100 in 1973. Overarching goals were created in consultation with more than 10,000 citizens of the state and are updated over time. The system relies upon a partnership between state and local governments to promote coordinated and consistent administration of land uses based on local comprehensive plans adopted throughout the state. The law is administered by the Land Conservation and Development Commission or LCDC, a citizens body appointed by the governor to oversee state policy, goals and guidelines. The Department of Land Conservation and Development or DLCD is the state agency that provides administrative oversight and technical assistance. Subsequent legislation created a process for appeal of local land use decisions to a new state agency called LUBA, the Land Use Board of Appeals.

Statewide Land Use Planning Goals

Oregon's primary land use policies are expressed in 19 Statewide Planning Goals*. The goals may be clustered into four groups: Goals 1 and 2 are the process goals of comprehensive planning; Goal 1 pertains to citizen involvement and Goal 2 to comprehensive planning. Goals 3 through 8, 13 and 15 express natural resource conservation goals. Goals 9 through 12 and 14 are concerned with housing, transportation, urban growth and economic development. The remaining goals 16 through 19 apply specifically to the unique resources of the Oregon coast.

Laws and Policies

Laws enacted by the Oregon legislature are codified in Oregon Revised Statutes or ORS and create the legal framework and requirements for the statewide planning program. The primary statutes are:

- Chapter 197*, Comprehensive Planning and Coordination
- Chapter 215*, County Planning and Zoning
- Chapter 227*, City Planning and Zoning
- Chapter 195*, Local Government Planning Coordination
- Chapter 196*, Wetlands, Rivers, Ocean Planning and the Columbia River Gorge
- Chapter 92*, Land Divisions
- Chapter 222*, Annexations

ORS 197 directs LCDC to adopt statewide land use planning goals to guide local governments and state agencies and also to adopt Administrative Rules to augment or provide more specific direction for meeting these goals and statutes.

State Role

LCDC is the state policy body charged with reviewing each local comprehensive plan and implementing land use regulations to comply with the goals. The technical term that describes state approval is "acknowledgment." When "acknowledged," the plan becomes the guiding document for all land use decisions in that jurisdiction. When changes or amendments to local plans and land use regulations are proposed, LCDC and DLCD review the

proposed changes for compliance with state requirements. Generally larger cities, in coordination with counties, are required to review and update their plans in a process called periodic review. DLCD gives local government's technical and financial assistance to help them update and implement their plans.

The Role of Cities and Counties

In compliance with statewide goals, cities and counties adopt their comprehensive plans and implement them through ordinances and other local measures. They review and update their plans and implementing ordinances as needed to meet changing needs and circumstances or to comply with new requirements.

Any development, whether a new single-family home or a shopping center, must receive prior approval from the local jurisdiction to ensure that it conforms to the land use plan and ordinances for health and safety and other local objectives. Typical land use decisions include variances, site and design review, conditional use permits, partitions, subdivisions and zone changes.

Certain kinds of development, such as an addition to a home may be approved quickly at the staff level while others, such as a home based business or small office complex in a residential zone may require conditional use approval by the planning commission. More complicated actions or policy changes, such as a new mixed use zone or zone change from multi-family residential to retail commercial may require approval of the city council or county board. A more complete discussion of city and county processes are found in the following chapters.

Appeals

Under Oregon law, individuals or organizations must have "standing" to appeal a land use decision. This means that they must have participated in the local hearings and raised specific issues concerning the proposed action. There are a number of ways to appeal a land use decision. Most are settled at the staff or planning commission level while others are heard by the elected city council or county commission or hearings officer. Others are decided by the Oregon Land Use Board of Appeals. Local staff are good resources for clarification on specific procedures.

Coordination

Governmental agencies are required to consult and coordinate with one another before making land use decisions that may affect another jurisdiction. An example is when the decision involves unincorporated areas within a city's urban growth boundary. In addition, by coordinating their plans, state, local and federal agencies can help leverage scarce funds and assure the public that spending on roads, water, sewer and other facilities is efficient and effective.

Citizen Involvement

Citizen involvement is the first of Oregon's Statewide Planning Goals and a hallmark of our planning program. Goal 1 calls for "widespread citizen involvement" and "effective two-way communication with citizens." At every level of government, citizens must be kept informed of land use activities and given opportunities to be involved. Each city and county plan must include a citizen involvement program that describes how the public can participate in each phase of its planning process, including rules for public notice and comments. Some jurisdictions use neighborhood or area advisory committees to review and make recommendations on major land use proposals.

What is a Comprehensive Plan?

A comprehensive plan is a generalized, coordinated land use map and policy statement of the governing body of a city or county. It relates to all man-made and natural systems as well as activities relating to the use of lands. It establishes the community's vision and identifies the type, location and intensity of future development. It must address local conditions and priorities consistent with the applicable requirements of the

Statewide Planning Goals. The plan is implemented through ordinances, codes, or regulations. It has the force of law and is the guiding land use document for each local jurisdiction.

Factual Base

Statewide planning goals require specific data and analysis to support the policies and land use designations.

Thus, accurate up-to-date information is a key component of each comprehensive plan. Required information includes facts about current and expected population growth, buildable lands, current land uses and development trends as well as inventories of local natural resources and geologic and hydrologic conditions that may affect planning decisions.

Goals, Policies and Maps

Local plans are guided by goals and policies that reflect the unique circumstances and vision of each community, respond to current needs and conditions, and provide guidance for implementing and amending the plan, funding and other matters. Each plan also includes a comprehensive plan map that shows the applicable land use designations, such as residential, employment and resource lands. Comprehensive plans also contain other supporting maps showing the urban growth boundary, and existing and proposed land uses, transportation facilities and public facilities and services. They also cover flood areas, geologic hazard areas, agricultural and forest lands, natural resources, historic resources and recreational facilities.

Implementation

Implementing measures are the ordinances, budgets and capital improvement programs, and specific standards and criteria that guide local jurisdictions in carrying out their comprehensive plans. These include zoning and land division ordinances and other land use regulations. For example, zoning ordinances specify

- the uses and activities allowed in various areas in a community. In urban areas, they typically emphasize topics such as housing, economic development and livability. In rural areas, zoning provisions typically emphasize farm and forest uses, rural residential development, and natural resource protection.

Functional Plans

Functional plans usually include site-specific details. A parks master plan may provide design for recreational facilities. A downtown redevelopment or main street plan may include streetscape design, off street parking, street trees and other amenities, pedestrian and bicycle circulation, lighting and mixed uses. Other examples of functional plans include Capital Improvement Programs, Transportation Systems Plans and Public Facilities Plans such as for sewer or water.

Sub-Area/Neighborhood Plans

The purpose of sub-area or neighborhood plans is to address specific needs identified by residents and businesses of a specific area. They protect and enhance livability at the neighborhood level within the framework of the comprehensive plan. These plans often include measures such as park improvements or better traffic circulation in the area.

Emerging Issues

In addition to the topics typically covered in the comprehensive plans, a number of new issues are gaining attention. Among these are sustainability, climate change and regional planning. Oregon's planning program and local land use plans provide a framework for communities to address these issues.

Sustainability

Many local communities are considering sustainable development as a framework to meet the physical, social and economic needs of the present as well as future generations. Sustainability involves management practices that emphasize mixed use development patterns, enhanced transportation linkages, protection of natural amenities and a sense of community. Many jurisdictions are integrating the concept of sustainability into their comprehensive plans and land use regulations. Many plans have these core elements in place already.

Climate Change

Scientific evidence confirms that the earth's climate is being affected by greenhouse gas emissions from cars, trucks, power plants and other human activities. The effects of climate change could have serious implications for the people, environment and economy of Oregon. The State has assessed these potential impacts and identified a range of actions to help prepare for, adapt to and mitigate the effects of too much carbon in the atmosphere. Local governments are beginning to address this issue. Resources for addressing climate change through local initiatives may be found at www.orclimatechange.gov.

Regional Planning

Many land use and natural resource issues affect areas beyond local governmental boundaries. Groundwater supplies, watershed restoration, economic development and transportation systems are examples. Regional planning can help address these and other matters through cooperation and coordination among neighboring jurisdictions and state agencies.

The State has several programs to help local jurisdictions meet regional planning needs, including intergovernmental teams and other regional problem solving approaches. Establishing urban growth boundaries and coordinating the delivery of public facilities and services inside that urban growth area is an important element of regional planning.

Specific regional programs in Oregon include the Portland Metro regional plan and urban growth boundary, estuary planning through the Oregon Coastal Management Program and planning coordination in the Columbia River Gorge National Scenic Area.

Statewide land use Planning Goals,

The role of City and Counties over view, this section is very important on what we review and how.

Appeals, for us the staff section really isn't accurate because if a staff decision is appealed it then has to go somewhere, so in our situation it goes to Planning Commission and Planning Commission decisions go to the City Council for appeal.

Coordination, either ODOT or County the system works better when everyone is on the same page. We have not had to do a lot of coordination of effort.

Citizen involvement, this is what we're doing here inviting everyone to come with that there are the agenda posting requirements. Renata also prepares notice labels when making a decision and property owners are then noticed and they must receive the decision or agenda a certain amount of time before also some items/applications need to be posted in the paper and there is a timeline for that as well.

Comprehensive Plan, this is really our land use constitution along with title 16 the Comp Plan is more the big picture this is where the zoning comes in. Sometimes when you change one you have to change the other.

Factual based means we can't just make it up. This requires facts and common sense behind it. Example Bixler property, for example they were going to put a mini grocery store in there and not to worry there won't be a traffic impact and the city approved it and someone appealed it they would request to see the facts.

Goals, policy strong economy are factors as well
Map, these are the zones.

Implementation is not just implemented through the code because our city has a traffic impact plan for traffic impacts as well.

Functional plan those are even more detailed and they must comply with the Comp Plan, such as the Main Street plan for example.

The HRB is part of the Comp Plan and is regulated as part of Comp Plan and title 17.

Visioning is separate from the Comp Plan but it complements the Comp Plan. If you were to update the Comp Plan it is a huge process and so many times we start with the visioning process before a Comp Plan is updated.

Oregon has the strictest and most rigorous State law Goals and Rules.

Ron Van Kleef, 20787 Yukon asks what are the items that your speaking about, Schaefer, let's say for example ODOT wants to have a bathroom outside of the city limits and they would need water this is a goal exception.

Another example for us to have that grocery store on property because we think there won't be a traffic impact we would need a goal exception to goal 12 ODOT would fight it all the way.

Van Kleef, I notice a few ODOT surveyors on Main Street. Are they planning on something Mayor Graupp yes they are planning on repaving a section of 99E south of the bridge heading back from Canby the bridge to 2nd street Aurora.

No more questions or comments

6. Old Business

A. Discussion and or Action on Legislation on Regarding Recreation Marijuana

Chair Schaefer opens with a question has anyone seen poling or the trend on where it's going, Mayor Graupp stated City of Portland is going to attempt a city tax even though the law doesn't support that. We try to avoid items that would put us in direct line of conflict.

Voting day is our next meeting, Mayor Graupp points out to the Commission that we are now 6 months into the moratorium on medical Marijuana.

Chair Schaefer for a recap the grow operation we had said in the industrial zone and sale/retail in the commercial zone not abutting residential so essentially the west side of 99E was the consensus of the Commission.

Ballot measure gives health authority to regulate sometime near 2016

So we won't be compelled to move forward quickly because there won't be regulation process.

Mayor Graupp, if it passes I think we should merge into what other cities are doing in Marion County.

7. Commission Action/Discussion

A. City Planning Activity (in Your Packets)

Status of Development Projects within the City.

Chair Schaefer reads the report submitted by City Planner Wakeley as she was excused from the meeting for lack of necessity.

Discussion items;

- 20836 Yukon deck violations, it is still a violation/compliance issue that is ongoing at this time and being addressed. Mr. Van Kleef of Aurora summarizes the situation and asks if they had not

built the deck over 30 inches then a permit would not be needed. Correct however Schaefer points out that you can't alter grade to accommodate a structure after construction has began just to make it your way. He also states that it clearly violates our code and it has been ruled on as such. Van Kleef asks why you would not want to be welcoming Chair Schaefer it has nothing to do with that however they do need to comply with the code when applying for permits. At this point it's an ongoing situation so therefore we should not be discussing it.

- No application at this time for Non-Remonstrance agreement for 21042 Jenny Marie.

8. Adjourn

Chairman Schaefer adjourned the October 7, 2014 meeting at 7:48 pm

Chairman, Schaefer

**HISTORIC REVIEW BOARD MINUTES
21420 MAIN ST. NE, AURORA OR 97002
September 25, 2014**

Staff Members Present: Kelly Richardson, CMC
City Recorder

Others Present: Bill Graupp, Aurora

The meeting of September 25, 2014 was called to order at 7:00 p.m. by Chair Abernathy.

Chairman Townsend takes Roll Call

Chairman Gayle Abernathy – Present
Member Bill Simon – Present
Member Merrra Frochen – Present
Member Mella Dee Fraser – Present
Member Karen Townsend – Present

CONSENT AGENDA

- I. **Historic Review Board Minutes** – August 28, 2014, on pg 3 under Old Business number 6 was done by Fraser not Frochen. On PG 2 A, CANVAS frees standing sign not a wall. Giesey store discussion Member Townsend corrects that she asked the applicant if they thought they would need to replace more items. Move 3rd bullet to the end because changes are above. Discussion regarding side walk we did make a consensus on that the new style would need to start somewhere.
- II. **City Council Minutes** August 2014 (not available)
- III. Planning Commission Minutes August 2014

A motion to approve the HRB minutes of August 28, 2014, with corrections made was made by Member Simon and is seconded by Member Fraser. Passed by all.

CORRESPONDENCE

5. New Business,

Member Townsend removes herself from the board at this time as she is the applicant.

A. Discussion and or Action on Sign Application for Time After Time 21611 Main Street,

Applicant presents her application with a New 16x16 wall sign, made of metal, font New Times Roman. , 6x9 Frees Standing Sign made of metal, New Times Roman font.

Title 17.24.100 B, wall sign it meets all criteria, 17.24.100 F, Freestanding sign meets all provisions.

Color two colors and background meet 17:24:070, metal, shape, color, sign graphics.

Motion to approve sign application as presented is made by Member Frochen and is seconded by Member Simon. Approved by all.

6. OLD BUSINESS

A. **Discussion and or action on Sign Inventory,** Member Frochen posed a question regarding the Lutheran Church gate sign as whether or not it is considered a free standing sign or not. Member Townsend informs Frochen that it is considered a free standing informational sign and is exempt under section 17.24.060.

o There is a brief discussion regarding the proper way to fill out the form that was adopted for the sign inventory. There was not enough information to move forward at this time with any more signs.

o Clarification on who is doing what signs is discussed again.

B. **Discussion and or action on Historic Inventory list,** Table until October and they will look at the guidelines corrections in November.

Although this is tabled until the October meeting there was a brief discussion and it is decided to add zoning as part of the criteria.

It is then brought to the Cities attention that many of the white picket fence screening material surrounding the garbage cans around the commercial district are in bad need of repair. City Recorder Richardson is asked to bring it up to the Public Works Department to see if there is anything that can be done.

Report from the Finance Officer
November 12, 2014

- Auditors are continuing work on our audit.
- Will be paying interest due on GO Sewer Dept service this month.
- Keeping current with payables and receivables.
- Continuing with front office duties.
- Revenue and expense report for the 1st quarter of 2014-2015 attached. This report shows budgeted amounts and percent of budget received/spent. Expenditures are in line for the first quarter (25% of the year). Revenues should pick up in the 2nd quarter with property taxes coming in and at least one new home building permit.

Respectfully,

Mary C. Lambert

Memo

To: City Council
From: Kelly Richardson
CC: None
Date: 11/6/2014
Re: Recorders Report Month of October 2014 report

Activities and ongoing projects are as follows:

- ❖ Ongoing secretarial duties for the City Council and Planning and Historic Review Board, along with attending the meetings once a month.
 - Working closely with Historic Review Board on guideline updates and changes.
- ❖ Attending Conference Committee And Records Committee Meetings
- ❖ Records Request update
 - None pending at this time.
- ❖ Ongoing needs of the City, discussion items.
- ❖ Updating Planning and Zoning Files and Forms/Checklists **ONGOING**
- ❖ Working with HRB on Historic Review Guidelines Updates and Formatting. **Ongoing**
- ❖ Updating water files and statistics to better reflect accurate information in Springbrook our utility billing and accounting software. Researching various accounts to reflect accurate information. **Ongoing**
- ❖ Integrated the new software for the billing software and working out a few bugs in the system.

CITY OF AURORA

ORDINANCE NO. 477

AN ORDINANCE PROVIDING FOR A CROSS CONNECTION CONTROL PROGRAM.

WHEREAS, Chapter 333, Division 61, of the Oregon Administrative Rules, mandate the responsibility of the City of Aurora to protect its drinking water by instituting and enforcing a cross connection control program.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF AURORA ORDAINS THAT:

SECTION 1. DEFINITIONS.

- (1) "APPROVED BACKFLOW PREVENTION ASSEMBLY" or "BACKFLOW ASSEMBLY" or "ASSEMBLY" means an assembly to counteract backpressure and/or prevent back-siphonage. This assembly must appear on the list of approved assemblies issued by the Oregon Health Authority.
- (2) "AUXILIARY SUPPLY" means any water source or system other than the City of Aurora Water System.
- (3) "BACKFLOW" means the flow in the direction opposite to the normal flow or the introduction of any foreign liquids, gases, or substances into the water system of the City of Aurora.
- (4) "BORESIGHT" or "BORESIGHT TO DAYLIGHT" means providing adequate drainage for backflow prevention assemblies installed in vaults through the use of an unobstructed drain pipe.
- (5) "CERTIFIED BACKFLOW ASSEMBLY TESTER" OR "TESTER" shall mean a person who has successfully completed and maintains all requirements as established by the Oregon Health Authority to be a tester in the state of Oregon.
- (6) "CERTIFIED CROSS CONNECTION CONTROL SPECIALIST" or "SPECIALIST" shall mean a person who has successfully completed and maintains all requirements as established by the Oregon Health Authority to be a Specialist in the state of Oregon and is either employed with the City of Aurora or contracted by the City of Aurora.
- (7) "CITY" shall mean the City of Aurora.
- (8) "CONTAMINATION" means the entry into or presence in a public water supply system of any substance which may be deleterious to health and/or quality of the water.
- (9) "CROSS CONNECTION" means any physical arrangement where a potable water supply is connected, directly or indirectly, with any other non-drinkable water system or auxiliary system, sewer, drain conduit, swimming pool, storage reservoir, plumbing fixture, swamp coolers or any other device which contains, or may contain, contaminated water, sewage or other liquid of unknown or unsafe quality which may be capable of imparting contamination to the public water system as a result of backflow. Bypass arrangements, jumper connections, removable sections, swivel or changeover devices or other temporary or permanent devices through which or because of which backflow may occur, are considered to be cross connections.
- (10) "DEGREE OF HAZARD" means the *non-health hazard* or *health hazard* classification that shall be assigned to all actual or potential cross connections.

(11) "DOUBLE CHECK VALVE BACKFLOW PREVENTION ASSEMBLY", "DOUBLE CHECK ASSEMBLY", "DOUBLE CHECK" or "DCVA" means an assembly which consists of two (2) independently-operating check valves which are spring-loaded or weighted. The assembly comes complete with a resilient seated shut-off valve on each side of the checks, as well as test cocks to test the checks for tightness.

(12) "HEALTH HAZARD" means an actual or potential threat of contamination of a physical, chemical or biological nature to the public potable water system or the consumer's potable water system that would be a danger to health.

(13) "NON-HEALTH HAZARD" shall mean the classification assigned to an actual or potential cross connection that could allow a substance that may be objectionable, but not hazardous to one's health, to backflow into the potable water supply.

(14) "OHA" shall mean Oregon Health Authority.

(15) "OAR" shall mean Oregon Administrative Rule.

(16) "PLUMBING HAZARD" means an internal or plumbing-type cross connection in a consumer's potable water system that may be either a pollutional or a contamination-type hazard. This includes, but is not limited to, cross connections to toilets, sinks, lavatories, wash trays, domestic washing machines and lawn sprinkling systems. Plumbing-type cross connections can be located in many types of structures including homes, apartment houses, hotels and commercial or industrial establishments.

(17) "POINT OF USE ISOLATION" means the appropriate backflow prevention within the consumer's water system at the point at which the actual or potential cross connection exists.

(18) "POLLUTIONAL HAZARD" means an actual or potential threat to the physical properties of the water system or the potability of the public or the consumer's potable water system, but which would not constitute a health or system hazard, as defined. The maximum intensity of pollution to which the potable water system could be degraded under this definition would cause minor damage to the system or its appurtenances.

(19) "POTABLE WATER SUPPLY" means any system of water supply intended or used for human consumption or other domestic use.

(20) "PREMISES" means any piece of property to which water service is provided, including, but not limited to, all improvements, mobile structures and other structures located upon it.

(21) "PREMISES ISOLATION" means the appropriate backflow prevention at the service connection between the public water system and the premises. This location will be at or near the property line and downstream from the service connection meter.

(22) "REDUCED PRESSURE PRINCIPLE BACKFLOW PREVENTION ASSEMBLY" or "REDUCED PRESSURE PRINCIPLE ASSEMBLY" or "RP ASSEMBLY" or "RPBA" shall mean an assembly containing two independently-acting approved check valves together with a hydraulically-operated, mechanically-independent pressure differential relief valve located between the check valves, and at the same time, below the first check valve. The assembly shall include properly located test cocks and two tightly closing shut-off valves.

(23) "SUPERINTENDANT" means the Public Works Superintendent or their designee.

(24) "SYSTEM HAZARD" means an actual or potential threat of severe danger to the physical properties of the public or consumer's potable water system or of a pollution or contamination which would have a detrimental

effect on the quality of the potable water in the system.

- (25) “THERMAL EXPANSION” means the pressure created by the expansion of heated water.

SECTION 2. PURPOSE.

The purpose of this Ordinance is to protect the water supply and distribution system of the City of Aurora from contamination or pollution due to any existing or potential cross connections.

SECTION 3. CROSS CONNECTIONS REGULATED.

- (1) No cross connections shall be created, installed, used or maintained within the area(s) served by the City of Aurora Water System, except in accordance with this Ordinance.
- (2) The Specialist shall carry out or cause surveys to be carried out to determine if any actual or potential cross connection exists. If found necessary, an assembly commensurate with the degree of hazard will be required at the service connection.
- (3) The owner, occupant or person in control of any given premises is responsible for all cross connection control within the premises.
- (4) All premises found on Table 48 of the OAR shall install a Reduced Pressure Backflow Assembly at the service connection in accordance with this Ordinance.
- (5) It is the responsibility of the property owner/occupant to purchase, install, test, repair and maintain all backflow assemblies.
- (6) If there is a change in ownership of any and all property within the City’s service area, it shall be the responsibility of the new owner to determine that all assemblies are in compliance with this Ordinance.
- (7) The use of any type of chemical spray attachment connected to the premises plumbing, including garden hose fertilizers and pesticide applicators, is not allowed within the City of Aurora Water System without proper protection from the potential of backflow occurring.
- (8) The use of any type of radiator flush kits attached to the premises plumbing is not allowed within the City of Aurora Water System without proper protection from backflow occurring.
- (9) In the event a backflow assembly that has been installed at the service connection to a residential property is deemed unnecessary by the City’s Specialist, it may be removed.

SECTION 4. BACKFLOW PREVENTION ASSEMBLY REQUIREMENTS.

A Specialist employed by or under contract with the City of Aurora, shall determine the type of backflow assemblies to be installed within the City of Aurora Water System. All assemblies shall be installed at the service connection unless it is determined by the Specialist and approved by the Public Works Superintendant that in-premises protection would be adequate. An approved assembly shall be required in each of the following circumstances, but the Specialist is in no way limited to the following circumstances:

- (1) In the case of any premises where there is any material dangerous to health which is handled in such a

fashion as to permit entry into potable water system, the potable water system shall be protected by an approved air gap separation or an approved reduced pressure principle backflow prevention assembly.

- (2) activity at premises, or materials stored at a premises, could contaminate or pollute the potable water supply. When a premises has one (1) or more cross connections, as that term is defined in Section 1.
- (3) When internal cross connections are present that are not correctable.
- (4) When intricate plumbing arrangements are present making it impractical to ascertain whether cross connections exist.
- (5) When the premises has a repeated history of cross connections being established or re-established.
- (6) When entry to the premises is restricted so that surveys for cross connections cannot be made with sufficient frequency to assure cross connections do not exist.
- (7) When materials are being used such that, if backflow should occur, a health hazard could result.
- (8) When an appropriate cross connection survey report form has not been filed with the City of Aurora Public Works Superintendent.
- (9) Any and all used water return systems.
- (10) If an in-premises assembly has not been tested or repaired as required by this Ordinance, the installation of a reduced pressure principle assembly will be required at the service connection.
- (11) There is piping or equipment for conveying liquids other than potable City of Aurora water and that piping or other equipment is under pressure and installed and operated in a manner that could cause a cross connection.
- (12) When installation of an approved backflow prevention assembly is deemed by a Specialist to be necessary to accomplish the purpose of this Ordinance.
- (13) Wherever reclaimed water or separate irrigation water is used on premises.
- (14) When there is a premises with an auxiliary water supply which is interconnected to the City of Aurora Water Service or supply system.

SECTION 5. INSTALLATION REQUIREMENTS.

All backflow prevention assembly installations shall follow the requirements as stipulated by the City of Aurora and the current OAR Chapter 333, Division 061.

If the premises isolation assembly is allowed to be installed at an alternate location, the City of Aurora must have access to the assembly. No connections can be made between the meter and the backflow assembly.

The type of backflow prevention assembly required shall be commensurate with the degree of hazard that exists and must, at all times, meet the standards of the Oregon Health Authority. All backflow prevention assemblies required under this section shall be of a type and model approved by the OHA.

SECTION 6. PLUMBING CODE.

As a condition of water service, customers shall install, maintain, and operate their piping and plumbing systems in accordance with the current Uniform Plumbing Code, or as amended. If there is a conflict between this Ordinance and the Plumbing Code, the more stringent supersedes.

SECTION 7. ACCESS TO PREMISES.

Authorized personnel of the City of Aurora, with proper identification and sufficient notice, shall have access during the hours of 6:00 AM to 6:00 PM to all parts of a premises and within the structure to which water is supplied. However, if any owner, occupant or person in control refuses authorized personnel access to a premises, or to the interior of a structure, for an inspection during these hours, a reduced pressure principle assembly must be installed at the service connection to that premises.

SECTION 8. ANNUAL TESTING AND REPAIRS.

All backflow prevention assemblies installed within the area(s) served by the City of Aurora shall be tested immediately upon installation, and at least annually thereafter by an OHA certified backflow assembly tester. All such assemblies found not functioning properly shall be promptly repaired or replaced at the expense of the owner, occupant or person in control of the premises. In the event an assembly is moved, repaired or replaced it must be retested immediately. If any such assembly is not promptly repaired or replaced, the City may deny or discontinue water to the premises.

SECTION 9. COSTS OF COMPLIANCE.

All costs associated with purchase, installation, surveys, testing, replacement, maintenance, parts and repairs of the backflow prevention assembly, and all costs associated with enforcement of this document, are the financial responsibility of the property owner, occupant, or other person in control of the premises.

SECTION 10. TERMINATION OF SERVICE.

Failure on the part of any owner, occupant or person in control of the premises to install a required assembly, have it tested a minimum of annually and repaired if necessary, and/or to discontinue the use of all cross connections and to physically separate cross connections in accordance with this Ordinance is sufficient cause for the discontinuance of public water service to the premises pursuant to Oregon Administrative Rule chapter 333-061-0070, or as amended. In the case of an extreme emergency or where an immediate threat to life or public health is found to exist, discontinuance or termination of public water service to the premises shall be immediate.

In lieu of termination of service, the City of Aurora may, at the property owner's expense, install a reduced pressure assembly at the service connection. Testing, maintenance and repair of the assembly will be the responsibility of the property owner.

SECTION 11. CONSTITUTIONALITY AND SAVING CLAUSE.

Should any provision, section, sentence, clause or phrase of this Ordinance, or the application of same to any

person or set of circumstances, are for any reason held to be unconstitutional, void, invalid, or for any reason unenforceable, the validity of the remaining portions of this Ordinance, or its application to other persons or circumstances, shall not be affected; thereby, it being the intent of the City of Aurora Water System in adopting and approving this Ordinance that no portion hereof or provision or regulation contained herein shall become inoperative or fail by reason of any unconstitutionality or invalidity of any other portion, provision, or regulation.

ADOPTED by the Aurora City Council at a City Council meeting held on Tuesday, November 11, 2014.

Dated this ____ day of November, 2014.

Bill Graupp, Mayor

Attest:

Kelly Richardson, CMC
City Recorder
